

Do you want to make a difference to everyone's future?

The United Kingdom Atomic Energy Authority's Culham Centre for Fusion Energy (CCFE) is at the forefront of research into nuclear fusion with its exciting potential as a long term, environmentally friendly energy source for future generations. CCFE operates and maintains JET (Joint European Torus), Europe's flagship fusion experiment and other research facilities including MAST (Mega Amp Spherical Tokamak) to support the next generation of fusion machines.

We offer Summer Placement positions and are seeking students that are bright, enthusiastic, inventive, team spirited and creative problem solvers.

If you feel that you fit the profile above then please contact us now for more details.

**Don't just engineer your own future,
engineer a future for everyone.**
